The attached memorandum tasks OL components to identify and prioritize new communications support for the period FY 1983 - FY 1987. OC would also like to have information concerning any new requirements listed in our FY 1982 budget. For example, during the period 1983 - 87, electronic transmission of classified mail between Agency buildings could become a reality. This is the appropriate time to document this and other requirements on the attached form. We would appreciate your inputs
